#	AllCamp Group	Last Name	First Name	CA:NotesfromParents(Medical)	CA:NotesfromParents(Social)
1	Grizzlies	Antonopoulos	James	Allergies to cashews, pistachios and amoxicyllan	
2	Grizzlies	Corvino	Liam		
3	Grizzlies	Dorsey	Charlie		Charlie is a curious, active, silly little guy who loves camp and playing with friends. He likes to move!! He needs occasional reminds to speak up, can be a little shy and may need a little time to warm up. I'd appreciate if the counselors could please make sure he eats more than a hotdog bun for lunch, he can be picky and needs food to fuel his energy levels!
4	Grizzlies	Embley	Daley		This will be the first time Daley is attending Camp Playland. She can be a bit shy at first but will be comforted that her brother Colton attends as well.
5	Grizzlies	Hurley	Jack		
6	Grizzlies	Lenze	Emma		
7	Grizzlies	Neill	Charlotte		
8	Grizzlies	Pardo	Olivia	Olivia has tubes in her ears but that shouldn't be an issue. She has an inhaler with albuterol that she uses as needed. I will give the inhaler to her counselor.	
9	Grizzlies	Phillips	Lila		

10	Grizzlies	Ricotta	Leonardo	Yes. Leo is severely allergic to dairy, eggs, cashews, and pistachios. He does have an epipen that we will leave at camp. Leo also has asthma (but usually only needs it when he is sick) and we will leave an inhaler at camp as well.	Leo has some separation anxiety. Severe allergy to dairy and ALL eggs.
11	Grizzlies	Saunders	Charlotte		
12	Grizzlies	Saunders	Griffin		
13	Grizzlies	Walker	Max	No medical issues, though as of Feb 2024 he is not potty trained. I believe he will be by summer time but something I wanted to note.	Max had a global physical delay from 0 - 2 but is now fully caught up. As a result of that experience though he is very cautious physically. He takes his time with stairs and maneuvering his body.
14	Grizzlies	Zablow	Myles	Asthma. Will have inhaler at camp.
